Welcome to the International AEM

It is with great pleasure that we welcome you to London for our Royal Free **International AEM** (Advanced Endoscopy Masterclass); a comprehensive, major educational event with the participation of a stellar faculty of highly acclaimed international and national speakers to showcase the state-of-the-art of advanced endoscopy.

The **AEM** is being held at the elegant and spacious home of the Royal Society of Medicine in the heart of central London and consists of 2 full days of didactic and interactive lectures (including dedicated hepatology and neuroendocrine satellite symposia) followed by a day of hands-on endoscopic submucosal dissection (ESD) training on tissue models with international experts. The ESD hands-on course runs in parallel with a state-of-the-art IBD post-graduate symposium.

AEM endorsing societies include: The European Society of Gastrointestinal Endoscopy (ESGE), the World Endoscopy Organisation (WEO), the British Society of Gastroenterology (BSG), the 'Sociedade Portuguesa de Gastreenterologia' (SPG), the 'Società Italiana Endoscopia Digestiva' (SIED) and the British Association for the Study of the Liver (BASL). The Federation of the Royal College of Physicians has approved the **AEM** for **24 CPD/CME credits** (grade1, external credits).

Once again, welcome to London for this comprehensive educational event!

Sincerely,

Dr Edward J. Despott
